National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Coastal Ocean Program Grants Proposal Application Package

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Revised Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for an additional 30 days of public comment preceding submission of the collection to OMB. A 60-day notice of request for comment on the extension of this collection was published in the *Federal Register* on June 8, 2021. This additional notice alerts the public that NOAA intends to revise the information.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before (insert date 60 days after date of publication in the FEDERAL REGISTER).

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0384 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Laurie Golden, Grants Administrator, 240-533-0285 or laurie.golden@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision and extension of a currently approved information collection. The National Oceanic and Atmospheric Administration's Coastal Ocean Program (COP), now known as the Competitive Research Program (CRP) under the National Centers for Coastal Ocean Science, provides direct financial assistance through grants and cooperative agreements for research supporting the management of coastal ecosystems and the NOAA RESTORE Science Program (RSP). The statutory authority for COP is P.L. 102-567 Section 201 (Coastal Ocean Program). NOAA was authorized to establish and administer the Restore Science Program, in consultation with the U.S. Fish and Wildlife Service, by the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies (RESTORE) of the Gulf States Act of 2012 (Public Law 112-141, Section 1604). Identified in the RESTORE Act as the Gulf Coast Ecosystem restoration Science, Observation, Monitoring, and Technology Program, the Program is commonly known as the NOAA RESTORE Science Program. In addition to standard government application requirements, applicants for financial assistance are required to submit a project summary form, current and pending form, and a key contacts form for both programs. CRP recipients are required to file annual progress reports and a project final report using CRP formats. The RSP are required to file semi-annual progress reports, a final report, and a Gantt chart showing project milestones using RSP formats. All of these requirements are needed for better evaluation of proposals and monitoring of awards.

Several revisions are being requested for this information collection. The approved annual and final reports for CRP will be revised to include the request for publication digital object identifiers (DOIs). The RSP semi-annual and final reports will be revised to include end-user details. Finally, the Current and Pending Support form is being updated to require applicants disclose all sources of current and pending research support, contractual or otherwise, direct and indirect, including current and pending private and public sources of funding or

income, both foreign and domestic. Other support should include all resources made available to a Covered Person in support of and/or related to all of their professional research and development efforts, including resources provided directly to the Covered Person rather than through the research institution, and regardless of whether they have monetary value (e.g., even if the support received is only in-kind, such as office/laboratory space, equipment, supplies, or employees). This should include resource and/or financial support from all foreign and domestic entities, including but not limited to, gifts provided with terms or conditions, financial support for laboratory personnel, and participation of student and visiting researchers supported by other sources of funding.
